

Tyrol TR-6 Edge Windows and Doors

The European-inspired Tyrol Series™ of windows and doors from Alpen High Performance Products evolves with the **Tyrol Edge**. Sleek and minimalist, the Tyrol Edge is designed to complement modern architecture with its sharp, clean corners and bold aesthetics. Its slim frames and clean edges create expansive openings that maximize natural light and panoramic views, making it ideal for contemporary spaces. Pairing PHIUS-certified thermal performance with design freedom, the Tyrol Edge offers versatility for modern custom homes and light commercial projects seeking both efficiency and striking visual appeal.

Engineered for versatility and elegance, its lightweight, steel-free fiberglass reinforcement system eliminates thermal bridging while reducing material complexity, allowing for larger openings with exceptional structural integrity.

Benefits:

- NFRC whole-window ratings up to R-6.7 (U-0.15)
- Center-of-glass performances up to R-7.7 (U-0.13)
- Full range of glazing options for maximum energy savings and comfort
- Fiberglass-reinforced profile allows for larger sizes without steel reinforcement
